Quality Horses For Sale

April 27, 2004

To Whom It May Concern:

We had the concrete work for our new horse arena done by Acosta Concrete of Fountain, Colorado. The price was very reasonable, and the workers, including owner, Arturo Acosta, were extremely efficient, organized, and easy to have around. They worked long hours and did an excellent job, without cutting any corners. The job went smoothly and was completed in a timely manner. We are very pleased with the results here at Anderson Training Stables.

We would highly recommend Acosta Concrete as a professional, well-organized business.

Sincerely,
